## PROFESSIONAL SUMMARY

Experienced Frontend Developer with a 1.5 year of hands-on experience in crafting engaging, user-centric websites. Proficient in a range of frontend technologies, including HTML, CSS, JavaScript, React JS, Next JS, Tailwind CSS, and Material-UI. Skilled in creating visually stunning, responsive designs and passionate about delivering clean, high-quality code.

Additionally, adept at backend development, with expertise in Node.js and database management using technologies such as MongoDB and Prisma. Experienced in API integration using Redux and React Query, ensuring seamless communication between frontend and backend systems.

Eager to contribute my skills to a dynamic organization and take on challenging projects, leveraging both frontend and backend expertise to deliver innovative solutions and drive business success.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, TypeScript, React JS, Material UI, Ant Design

**Frameworks:** Next JS, Tailwind CSS, Bootstrap

**Others:** Node JS, Mongo DB, Express, Prisma Rest API's, Unit testing, App Optimization Framer Motion

## EXPERIENCE

**Full Stack Developer** | Esspfa IT Solutions

2023 - Present

- Developed and implemented responsive web designs using HTML, CSS, and JavaScript to enhance user experience and optimize website performance.
- Collaborated with cross-functional teams to create intuitive and visually appealing user interfaces, ensuring seamless integration with backend systems.
- Contributed to the development and maintenance of websites for diverse clients, including GoodGoblin.ai, Tourqlist, Uno-Check, and more, demonstrating adaptability and versatility in handling various project requirements.

**Frontend Developer** | Techguys Services ( US Based Remote Job)

01/2023 – 09/2023

- Successfully integrated APIs into web applications using Redux and React Query, enhancing data retrieval and management capabilities, thereby improving overall website functionality and user experience.
- Conducted thorough browser compatibility testing and resolved frontend bugs to ensure consistent and flawless functionality across different platforms.

**Associate Software Engineer** | Tixsee Labs LLC

04/2022 – 06/2022

- During my internship at Tixsee Labs LLC, I had the opportunity to work closely with experienced professionals and gained valuable hands-on experience.
- My time at Tixsee Labs LLC exposed me to real-world projects.

## EDUCATION

University of Karachi

**BS in Software Engineering**

2020 - 2024

## PROJECTS

**Project 1** | Point of Sale (POS) System <https://aliraza-easypo.vercel.app/>

- Architected and developed a comprehensive Point of Sale (POS) system from scratch using modern web technologies.
- Designed an intuitive user interface utilizing React for frontend development, Tailwind CSS for responsive styling, and dynamic components for enhanced user interaction.
- Engineered a robust backend using Node.js and Express, enabling seamless communication between the frontend and the database.

**Project 2** | GoodGoblin.ai - AI-Powered Application

- Spearheaded the development of GoodGoblin.ai, an innovative AI-powered application leveraging cutting-edge technologies.
- Developed a responsive and intuitive user interface using React.js, ensuring seamless interactions and a visually appealing experience for users.
- Integrated Prisma with Node.js to efficiently manage and interact with the application's database, enhancing data retrieval and storage capabilities.
- Continuously optimized and improved the application's performance, scalability, and user experience through iterative development and feedback-driven enhancements.
